Dr. ANITA G. DAVID
SUC President

MA'AM:

Warm greetings of respect and appreciation.

We respectfully request your approval for the conduct of the 3rd **Hardhatting Ceremony** for the Bachelor of Science in Civil Engineering students under the College of Engineering and Computer Studies. This activity marks an important milestone for our future engineers as they embark on their journey into real-world fieldwork and professional formation.

This year's ceremony carries the theme: *"Guiding the Flow, Building the Future: Hardhatting Tomorrow's Real-World Engineers."* The theme emphasizes our commitment to preparing student-engineers to navigate real-world challenges, uphold safety and discipline in engineering practice, and contribute meaningfully to nation-building through responsible infrastructure development.

The event is proposed to be held on **April 23, 2026** at **Rafael Lazatin Audio Visual Center** with invited guests from the industry, faculty members, and student organizations. The program aims to instill professional values, field readiness, and a deeper appreciation of engineering responsibilities before students participate in laboratory activities, workshops, and on-site exposures.

We kindly seek your approval to proceed with the planning and implementation of this significant academic and professional rite of passage. Rest assured that all university protocols and safety guidelines will be strictly observed.

Also, we earnestly hope that you would be a part of our department's milestone and that this humble request will merit your most favorable consideration for the greater interest and welfare of the students, faculty, and other stakeholders.

Thank you so much and God bless you always.

Respectfully yours,

Maria Cristina V. David, Ph.D.
