DR. ANITA G. DAVID
University President

Ma'am/Sir:

This is to respectfully submit the narrative report on our participation in the training workshop titled **"Impact Assessment Model 2: Training on Financial Analysis for Impact Assessment Projects in the ANNR Sector in Central Luzon,"** held from **August 11 to 15, 2025**, at **RC Undan Hall, PhilSCAT, Central Luzon State University, Science City of Muñoz, Nueva Ecija**.

The training was organized by the **Central Luzon Agriculture, Aquatic, and Resources Research and Development Consortium (CLAARRDEC)** to enhance the capabilities of researchers and project implementers in applying financial analysis to evaluate the effectiveness, efficiency, and long-term impact of R&D and extension programs in the ANNR sector.

The activity aimed to equip stakeholders with the necessary analytical tools and methodologies for conducting sound financial assessments, ultimately contributing to stronger program outcomes and long-term sustainability.

Highlights of the Training/Activity

Representing the **Pampanga State Agricultural University (PSAU)** in this regional capacity-building training were:

- Dr. Amalia C. Briones – Director, Office of Extension and Training
- Dr. Marie Anne D. Valerio – Director, Gender and Development
- Mr. Emmanuel A. Cabral – Assistant Director, Office of Extension and Training
- Ms. Arianne P. Barrientos – Assistant Director, Office of Research and Development
- Mr. Jansen Joshua L. Canlas –University Economist

These delegates actively participated in all sessions, workshops, and group discussions throughout the five-day training.

Day 1 – August 11, 2025

- **Lecture 1: Capital Investment**
  Speaker: Dr. Marilyn M. Elauria

Addressed principles of capital allocation in agricultural enterprises.

SDG Link: SDG 8 – Promoting sustainable economic growth through sound investment decisions.

- **Lecture 2: Balance Sheet**

  Speaker: Dr. Marilyn M. Elauria

  Focused on financial stability and management indicators for projects.

  SDG 12 – Enhancing financial accountability in responsible production systems.
- **Workshop (Facilitator: Dr. Jessie C. Elauria)**

  Participants practiced compiling balance sheets and interpreting investment scenarios for small-scale farming ventures.

  SDG Application: The workshop included a case study on a women-led farming cooperative, aligning with SDG 5 – Gender Equality and SDG 1 – No Poverty.

Day 2 – August 12, 2025

- **Lecture 3: Time Value of Money**

  SDG 8 – Supports long-term economic planning for sustainable growth.
- **Lecture 4: Financing the Project and Debt Services**

  Explored access to finance for smallholder farmers.

  SDG 1 & 2 – Supporting inclusive access to credit to reduce poverty and improve food **systems.**
- **Lecture 5: Cash Flow and Undiscounted Measures of Project Worth**

  Encouraged efficient resource planning and cost-recovery models.

  SDG 12 – Promoting sustainable and transparent financial practices.

Day 3 – August 13, 2025

- **Lecture 6: Income Statement and Profitability Analysis**

  Speaker: Ms. Janet O. Nebres-Padilla

  Focused on profitability indicators for agri-based enterprises.

  SDG 8 – Promoting inclusive and sustainable rural economic activities.
- **Lecture 7: Farm Planning and Budgeting**

  Speaker: Ms. Zeren Lucky L. Cabanayan

  Presented strategies for resource-efficient, climate-smart farming.

  SDG 13 – Climate Action, through improved resource allocation and adaptive budgeting.
- **Lecture 8: Break-Even Analysis**

  Speaker: Ms. Janet O. Nebres-Padilla

  Taught participants how to assess financial viability early in the project lifecycle.

  SDG Link: Supports SDG 12 – Sustainable consumption and production.

Day 4 – August 14, 2025

- **Lecture 9: Discounted Measures of Project Worth**
  Speaker: Mr. Nichol Andre M. Bartolome
  Applied financial analysis tools like NPV and IRR to agricultural enterprises.
  SDG 8 – Encouraging investment in resilient, growth-oriented projects.
- **Lecture 10: Sensitivity Analysis**
  Speaker: Mr. Fernando P. Ferrer
  Enhanced decision-making under uncertainty, especially in climate-sensitive sectors.
  SDG 13 – Climate Action, integrating risk analysis for adaptive project planning.
- **Workshop Application**
  Participants worked on project cases involving rural microenterprises and cooperative-led initiatives addressing community nutrition.
  SDG Integration: This fostered alignment with SDG 2 – Zero Hunger and SDG 11 – Sustainable Communities.

Day 5 – August 15, 2025

- **Morning Session: Financial Analysis Case Workshop**
  Each group analyzed real or simulated financial data and proposed investment recommendations.
- **Afternoon: Presentation and Critiquing of Financial Analysis Cases**
  Participants received feedback on alignment with financial best practices and impact targets.
- **Post-Training Evaluation and Closing Program**
  Participants expressed confidence in applying financial tools to support SDG-aligned project planning and monitoring.

Plan of Action for Knowledge Sharing

The knowledge gained from the training will be utilized in assessing the impacts of projects implemented by other agencies. Specifically, the financial analysis tools and frameworks learned will be applied during collaborative evaluations to ensure that impact assessments are more comprehensive and evidence-based. These assessments will generate financial insights that can guide resource allocation, project improvement, and policy recommendations, thereby strengthening the overall quality and relevance of evaluation reports

Recommendation

It is recommended that the knowledge and tools gained from the training be systematically applied in the impact assessment of projects implemented by other agencies. By integrating financial analysis into evaluation processes, the institution can provide more comprehensive and evidence-based assessments that will contribute to sound decision-making, resource optimization, and policy formulation. Furthermore, documenting these applications and lessons learned is encouraged to ensure continuous improvement and to strengthen the institution's capacity in conducting impact assessments.
