Subject: **Request Approval For A Flexible Work Schedule Amid Four-Day Workweek Implementation**

**DEAR PRESIDENT DAVID:**

Warmest greetings from the General and Auxiliary Services family!

Respectfully, this Office would like to request approval for the adoption of a **Flexible Work Schedule** among the personnel of the Office of General and Auxiliary Services in view of the ongoing implementation of the **Four-Day Workweek** in the University.

The nature of work performed by GAS personnel—particularly those assigned to **building and ground maintenance, housekeeping, utilities, motor pool operations, and event support**—requires continuous and timely service delivery that is closely aligned with daily campus operations. These functions are largely field-based, operational, and service-oriented, and are not always compatible with extended daily work hours under a compressed four-day schedule.

In practice, the four-day workweek has presented operational challenges for GAS, such as reduced on-site manpower on certain days, limited flexibility in responding to urgent maintenance and safety concerns, and difficulty in synchronizing support services with the regular five-day academic and administrative operations of the University. Given these circumstances, a **flexible work schedule** is deemed more appropriate to ensure uninterrupted service, efficiency, and the sustained upkeep of University facilities.

Under the proposed flexible work arrangement, GAS personnel may be allowed to follow **staggered or alternative schedules** that will enable the Office to maintain daily operational coverage while still observing applicable civil service rules on work hours, productivity, and employee welfare. This arrangement will also help prevent personnel fatigue, promote occupational safety, and ensure that services to students, faculty, staff, and stakeholders remain responsive and effective.

| **Monday-Thursday** (7:00AM-12:00NN/ 1:00PM-6:00PM) | **Tuesday- Friday** (7:00AM-12:00NN/ 1:00PM-6:00PM) | **Monday-Thursday** (6:00AM-11:AM/ 1:00PM- 6:00PM) **BUILDING CARETAKERS** | **MONDAY-FRIDAY** (6:00AM-10:00AM/ 1:00PM-5:00PM **STREET SWEEPERS/ GARBAGE COLLECTORS** | **Monday-Friday** 7:00AM-11:00AM/ 1:00PM- 5:00PM **BUILDING & GROUNDS MAINTENANCE PERSONNEL** | **Monday-Wednesday** (7:00AM-12:00NN/ 1:00PM-6:00PM) **Thursday Saturday** (7:00AM-12:00NN) |

|---|---|---|
| **STREET SWEEPING AND GARBAGE COLLECTION** are field-based, labor-intensive tasks that are most effective when performed early in the morning, before the peak movement of students, faculty, staff, and vehicles within the campus. Commencing work at 6:00 AM allows personnel to clear roads, pathways, and common areas prior to regular office hours, thereby maintaining campus cleanliness, safety, and order. Early morning cleaning minimizes exposure to vehicular and pedestrian traffic, reducing the risk of accidents involving maintenance personnel. By completing the bulk of sweeping and garbage collection activities before 7:00 AM, the university ensures safer working conditions and prevents obstructions during peak campus hours.<br><br>Garbage collection and street cleaning activities typically decline in volume during late afternoon hours, especially after offices and classes conclude. Maintaining personnel until 6:00 PM does not proportionately increase productivity. Ending the workday at 4:00 PM ensures that manpower deployment is aligned with actual service demand rather than uniform office schedules. | **BUILDING HOUSEKEEPING DUTIES**—such as cleaning offices, classrooms, corridors, restrooms, and common areas—are most effectively performed before the start of regular office hours. A 6:00 AM reporting time allows personnel to complete major cleaning activities ahead of faculty, staff, and student arrival, ensuring that facilities are clean, orderly, and ready for use by 7:00 AM.<br><br>Early-morning housekeeping reduces noise, movement, and interruptions during official working hours. By advancing the start time by one hour, housekeeping personnel can complete high-impact tasks without interfering with teaching, meetings, and client services, thereby promoting a more conducive learning and working environment.<br><br>Maintaining the 1:00 PM–6:00 PM afternoon schedule ensures continued housekeeping support during peak facility usage in the latter part of the day, including afternoon classes, meetings, and official university activities. This alignment is particularly important under a four-day workweek, where office operations are more compressed and demand for services is intensified. | **BUILDING AND GROUND MAINTENANCE FUNCTIONS**—such as preventive maintenance, minor repairs, grounds upkeep, landscaping, equipment inspection, and routine servicing—require consistent daily attention rather than compressed work periods. A five-day schedule ensures regular monitoring and timely intervention, preventing minor issues from escalating into major repairs.<br><br>Maintenance work is physically demanding and task-oriented. Spreading work hours across five days allows personnel to maintain productivity and workmanship quality without the fatigue commonly associated with extended daily work hours under a four-day compressed schedule.<br><br>Maintenance requests and field activities occur daily and unpredictably, often requiring immediate response. A five-day presence ensures that maintenance personnel are available throughout the workweek, improving responsiveness to service requests from academic and administrative units.<br><br>Extended daily working hours from 7:00 AM to 6:00 PM under a four-day workweek increase exposure to physical strain, heat, and workplace hazards. A five-day schedule with a 5:00 PM end time reduces fatigue and supports compliance with occupational safety and health standards, thereby lowering the risk of accidents and injuries. |

In view of the foregoing, we respectfully seek your favorable consideration and approval for the implementation of a **Flexible Work Schedule for GAS personnel**, subject to existing laws, Civil Service Commission guidelines, and internal University policies.

Thank you very much for your continued support and guidance. We look forward to your kind approval.

Respectfully yours,

**ARNOLD G. GOZUM, MPS, LPT**
Director, General and Auxiliary Services

Noted:

**LESTER ALDRIN O. ESCOTO, MBM**
Human Resource Management Officer

Recommending Approval:

**MINA LYN G. ALVIZ, M.A.Ed.**
Acting Vice President for Administration and Finance

Approved by:

**ANITA G. DAVID, Ed.D.**
