DR. ANITA G. DAVID
SUC President

Dear Ma'am Anita,

Greetings of good health and peace from the CoECS family!

With due respect, we would like to inform your good office that the previously scheduled educational visit of our 3rd Year BS Civil Engineering students on February 26, 2026 (Thursday) has been rescheduled due to the unavailability of university service vehicles. The vehicles are scheduled to be utilized for SCUAA III activities on the said date.

In line with this, we are humbly requesting permission to conduct the educational visit on the **rescheduled date of March 5, 2026 (Thursday)** to the following construction sites and industrial facilities:

1. North South Commuter Railway Extension (NSCR-EX) Project – CP N01, Apalit, Pampanga
2. B-12 Construction and Trading Corporation, City of San Fernando, Pampanga

This educational visit is an essential component of the students' exposure to actual construction sites to further enhance their competence in the field of civil engineering prior to their On-the-Job Training (OJT). Moreover, this activity will provide them with valuable insights into modern construction techniques, innovations, and materials currently utilized in the industry.

The group consists of twenty-eight (28) students enrolled in the Civil Engineering program, accompanied by six (6) faculty members. We remain committed to maintaining the highest standards of professionalism and discipline throughout the visit.

Should this request be granted, we respectfully seek the use of university vehicles (1 coaster and 1 SUV) to transport the students and faculty to the specified locations on the new schedule.

We sincerely hope for your kind consideration and favorable approval of this request in support of the academic growth and professional development of our future builders. Thank you very much, and may God bless us always.

Respectfully yours,

MARIA CRISTINA V. DAVID, Ph.D.
Chair, Department of Civil Engineering
